

myneva Takes a Stand for Diversity: Cooperation with “Gesichter Gegen Rechts”

Through its cooperation with the **Gesichter Gegen Rechts** (Faces Against the Far Right) initiative and a joint photo shoot at the **Altenpflege Fair 2025** on April 8, myneva is making a powerful statement for diversity, respect, tolerance, and integrity.

Essen, March 18, 2025 – Diversity, respect & tolerance, and integrity are not just values that myneva upholds internally – they are also the foundation of a strong and open society. That’s why the European software provider myneva is partnering with the photography initiative **Gesichter Gegen Rechts** to send a visible message against discrimination and right-wing extremism and in favor of a democratic, diverse society.

As a company that develops digital solutions for the social and care sector, myneva sees diversity as a key strength. *“Our industry thrives on the diversity of the people who shape it. Care can only function with respect, tolerance, and mutual appreciation. Our cooperation with Gesichter Gegen Rechts is a clear commitment to these values and a call to take a stand,”* says Dieter Weisshaar, CEO of the myneva Group.

The long-term photographic project **Gesichter Gegen Rechts** is dedicated to encouraging people across Europe to position themselves against discrimination and in support of democratic values through expressive portraits – creating a powerful visual statement for diversity, openness, and respect. myneva actively supports this initiative and invites employees, customers, and partners to become part of it.

A special highlight of the collaboration will be a joint photo shoot with Gesichter Gegen Rechts at the Altenpflege Fair 2025 on April 8 from 10 AM to 6 PM in Nuremberg.

About Gesichter Gegen Rechts

Gesichter Gegen Rechts is a Europe-wide initiative that uses striking, colorful portraits to send a clear message against right-wing extremism, discrimination, and exclusion. Organized photo shoots across Germany and other European countries capture powerful images of people who stand for openness, diversity, and a democratic society.

The photo shoots are open to anyone who wants to support these values and make a visible statement. Each portrait becomes part of a growing collection that highlights one key message: *We are the majority – every face counts!*

The initiative was founded by photographers **Anne Manke and Kai Mattern**, who not only bring people together through their work but also create a visual platform for solidarity and social cohesion.
